

NORTHUMBERLAND DEVELOPMENT PROJECT

HAVE YOUR SAY SECOND PUBLIC EXHIBITION

Following our first exhibition in November of last year, we've had strong support for our plans to keep Tottenham in Tottenham with a world-class new stadium, a new base for the Tottenham Hotspur Foundation, a vibrant mix of other uses including retail, restaurants and homes alongside important new public space.

Over the last few months we have made further progress and are coming back with a second exhibition presenting detailed images and designs for public comment. We're proud of our roots in Haringey and strongly believe that these proposals would deliver a dramatic improvement to this part of Tottenham High Road and provide a huge boost for the area.

Now we want your views again

Come and visit us to find out more. We'll be in the Bill Nicholson suite at the stadium (entry off Park Lane).
